Art Unit: 3653

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hauck.

Hauck discloses a pill dispenser 10 comprising: a housing (stopper 12 and tube 14) having an upper end and a lower end, said upper end attachable to a pill storage container 11, said upper end having a pill entrance in communication with a pill container interior, said lower end having a pill dispensing opening (see Figure 2); a pill passageway within said housing, said passageway extending from the entrance to the dispensing opening (see Figure 2); a plunger means 23 mounted on said housing for selectively delivering a single pill from said pill container through said passageway to said dispensing opening.

3. Claims 2 through 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Bollinger whose telephone number is 571-272-6935. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
